

FL501

This built-in speaker is flatter and more invisible than any of its predecessors. The frame has been reduced down to 1 millimetre, but still scores high when it comes to vibration absorption. The grille of the speaker is extremely fine-tuned and feels almost like silk. The sound is accurate, warm and carries far. A no-bones-about-it speaker.

One of the most popular speakers thanks to the power of the sound and the modest mounting dimensions.
