## Hear it One: smart, audiophile & comfortable

Dynamic headphone with neodymium magnetic transducers satisfies with audiophile playback and classy looks. Hear it One offers more detail, than most headphones costing twice or more. Their leather head-band can easily be adjusted and soft ear cushions made from memory foam with leather coating make it easy to hear music for hours. A woven cable with bend-protection made from high purity oxygen-free copper (HP-OFC), high-quality gold-plated plugs guarantee undisturbed low-loss signal transmission.
