

Please read these instructions carefully before using this product, and save this manual for future use.

IMPORTANT SAFETY INSTRUCTIONS

- Read this Owner's Manual carefully before using the unit. Follow the safety instructions on the unit and the applicable safety instructions listed below. Keep this Owner's Manual handy for future reference.
1. Do not use the apparatus if the power cord is damaged, frayed, or the power cord is plugged into an outlet that is not where they exit from the apparatus.
 2. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
 3. Unplug this apparatus during lightning storms or when unused for long periods of time.
 4. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen onto the apparatus, the apparatus has been exposed to rain or moisture, objects have been inserted into the apparatus, or the power supply cord has been damaged.
 5. Clean only with dry cloth.

Safety precautions

THE FOLLOWING APPLIES ONLY IN THE U.S.A. AND CANADA

This device complies with Part 15 of FCC Rules and Canadian, Science and Economic Development

Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation.

EAH-AZ260 **EAH-AZ260**

EAH-AZ260 **EAH-AZ260**

Model EAH-AZ260 IC: 216A-EAH-AZ260M2

Model EAH-AZ260M2 IC: 216A-EAH-AZ260M2

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

(For the U.S.A. only)

EAH-AZ260, EAH-AZ260M2 and EAH-AZ260M2 have been tested and found to comply with FCC radiation

exposure limits set forth for an uncontrolled environment and meet the FCC radio frequency (RF) Exposure

(For Canada only)

EAH-AZ260, EAH-AZ260M2 and EAH-AZ260M2 have been tested and found to comply with ICSED radiation

exposure limits set forth for an uncontrolled environment and meet RSS-102 of the ICSED radio frequency

(RF) Exposure rules.

THE FOLLOWING APPLIES ONLY IN THE U.S.A.

FCC
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used properly, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help.

FCC Caution:
Unauthorized changes or modifications to this equipment would void the user's authority to operate this device.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

⚠ WARNING

Unit

- Do not use, store, or leave in places with high humidity, dust, smoke, steam, or in places with high temperature.
- Do not use the product in places with lightning, electric shock, overheating, or ignition.
- Do not expose this unit to rain, moisture, fire, or other hazardous conditions.
- Never insert the charging cradle or USB charging cable when they are wet. (Causes fire, electric shock, heat generation, or ignition)

English

If the terminal of the USB charging cable is inserted while it is wet, a short circuit may occur due to liquid (tap water, seawater, soft drink, etc.) or foreign matter on the charging cable or USB charging cable, and cause abnormal heat generation or malfunction.

- Do not use the unit with accessories not recommended by the manufacturer.
- Do not remove covers.
- Do not repair this unit by yourself. Refer servicing to qualified service personnel.
- Do not use the unit while it is covered with a blanket, etc. (Heat accumulates and causes cradle deformation or fire)
- Do not use the unit in extremely high or low temperature environments, or in the vicinity of heat sources (e.g., fire, open flame, etc.)
- Do not use the unit in the vicinity of a battery fire or a hot oven, or mechanically rubbing or cutting of a battery; that can result in an explosion.

Exposure to extremely high or low temperature and/or extremely low air pressure that can result in an explosion or the leakage of flammable liquid or gas.

When using the wireless charging pad

- Do not use the unit in the vicinity of heat sources (e.g., fire, open flame, etc.)
- Do not attach metallic objects such as stickers made from material containing metal on the wireless charging pad and unit. (Causes fire, burns, or injuries)
- When using the wireless charging pad, do not place metallic objects such as strips or clips made from material containing metal on the wireless charging pad. (Causes fire, burns, or injuries)

English

- When charging with the wireless charging pad, remove the parts such as covers attached to the charging case. Depending on the material or thickness of the cover, or due to foreign objects caught between the charging case and the cover, charging may not be performed properly. (Causes fire, burns, or injuries)
- The unit is not guaranteed to charge with all commercially available Qi standard wireless chargers.
- This unit does not support wireless chargers that are not Qi standard certified or have magnetic attachments. Do not use these chargers to charge the charging cradle. (It may cause the charging cradle to malfunction.)

Built-in battery

- Do not heat or expose to flame.
- Do not leave the unit in a car exposed to direct sunlight for a long period of time with doors and windows closed.

⚠CAUTION

Unit

- Do not place this unit near a heat source.
- Do not listen with this unit at high volume in places where you need to hear sounds from the surrounding environment for safety, such as at railroad crossings, and construction sites.
- Keep the unit away from something susceptible to the magnetism. Such devices as a dock may not operate correctly.

English

- Be aware that this unit (earphones) may get warm while charging or immediately after charging. Depending on your constitution and health status, putting the earphones on may trigger adverse reactions such as skin redness, itching, and rash if the earphones have just been taken out of the charging cradle and are still warm.

Earphones/Earpieces

- Keep the earphones and the earpieces out of reach of children and pets to prevent swallowing. After use, put them in the charging cradle and close the lid for storage.
- Securely attach the earpieces. If they are left in the ears after coming off, injury or sickness may be caused.

Allergies

- Discontinue use if you experience discomfort with the earphones or any other parts that directly contact your skin.
- Continued use may cause rashes or other allergic reactions.

Precautions for listening with the Earphones

- Excessive sound pressure from earphones and headphones can cause hearing loss.
- Do not use your earphones at a high volume. Hearing experts advise against continuous extended play.
- If you experience a ringing in your ears, reduce volume or discontinue use.
- Do not use while operating a motorized vehicle. It may create a traffic hazard and is illegal in many areas.
- You should use extreme caution or temporarily discontinue use in potentially hazardous situations.

This unit may receive radio interference caused by mobile telephones during use. If such interference occurs, please increase separation between this unit and the mobile telephone.

Use only the supplied USB charging cord when connecting to a computer.

The symbols on this product (including the accessories) represent the following.  AC  DC
